

## MOBILE ANESTHESIOLOGISTS OF THE MOTOR CITY

---

**OUR PROVIDERS** are all board-certified/eligible physician-anesthesiologists. We utilize only the highest-trained, highest-qualified practitioners to provide care in the office-based environment. Our Mobile team also includes an ACLS/BLS/PALS-certified, critical care registered nurse (RN) that is trained in difficult airway management for all peri-anesthesia needs.

**OUR STANDARDS** are rigorous as we adhere to the guidelines set forth by the Accreditation Association for Ambulatory Healthcare (AAAHC) and the American Society of Anesthesiologists (ASA) for office-based practice. Patient safety is our #1 priority and Mobile follows strict credentialing guidelines in regards to both our physician anesthesiologists as well as the surgeons for whom we provide service.

**OUR CLIENTS** include (but are not limited to) physicians specializing in Pain management, Gynecology, Dental, ENT, Ophthalmology, Orthopedics and Podiatry. Since our services are customized and uniquely tailored to each individual office, this range of specialties continues to expand. The geography MAMC services is also expanding and currently includes metro-Detroit, mid-Michigan (Midland/Mt. Pleasant area), and Southwest Michigan (Grand Rapids and Kalamazoo).

**OUR COSTS** for the all-inclusive service are a fraction of what would be charged to have the same anesthesia provided in a hospital or ambulatory surgical center setting. Our distinct model generates a significantly decreased cost to the insurance provider and most importantly, the patient. MAMC handles all anesthesia-related billing with most insurance companies; private, commercial, state or federally funded. We work hard to minimize patients' out-of-pocket costs and most expenses are limited to deductibles, co-pays and/or co-insurance. This ensures that the services of Mobile Anesthesiologists of the Motor City can be affordable for all patients.
