

Mobile Anesthesiologists recently learned that sometime prior to December 14, 2020, a limited amount of Mobile Anesthesiologists' data may have been acquired by an unauthorized individual due to a technical misconfiguration that allowed the data to be publicly accessible. Mobile Anesthesiologists immediately launched an investigation in consultation with outside cybersecurity professionals who regularly investigate and analyze these types of situations to determine whether any data was compromised.

Mobile Anesthesiologists devoted considerable time and effort to determine what data may have been available. Based on its comprehensive investigation and document review, which concluded on January 28, 2021, Mobile Anesthesiologists discovered that the data included a limited amount of personal and/or protected health information, including full names and one (1) or more of the following: medical procedure date/name, health insurance information, and/or date of birth. **Social Security numbers and credit and debit card information were NOT impacted by this incident.**

To date, Mobile Anesthesiologists is not aware of any reports of identity fraud or improper use of any information as a direct result of this incident. Out of an abundance of caution, Mobile Anesthesiologists provided written notification of this incident commencing on March 10, 2021 to all those impacted to the extent Mobile Anesthesiologists had a last known home address. The notice letter specifies steps impacted individuals may take in order to protect themselves against identity fraud, including placing a fraud alert/security freeze on their credit files, obtaining free credit reports, remaining vigilant in reviewing financial account statements and credit reports for fraudulent or irregular activity on a regular basis, and taking steps to safeguard themselves against medical identity theft.

Mobile Anesthesiologists is committed to maintaining the privacy of personal information in its possession and has taken many precautions to safeguard it. Mobile Anesthesiologists continually evaluates and modifies its practices and internal controls to enhance the security and privacy of personal information. Mobile Anesthesiologists has corrected the misconfiguration that allowed the exposure of the information.

Individuals with questions concerning this incident may call a dedicated and confidential toll-free response line that Mobile Anesthesiologists has set up to respond to questions at (833) 933-1102. The response line is available Monday through Friday, 9:00am to 9:00pm Eastern Time.
